The Israeli High-Tech Resilience- lessons and learnings

Hemdat Sagi
Managing Director VW Group Innovation Hub, Tel Aviv

Main Attributes of the Israeli High-Tech Ecosystem
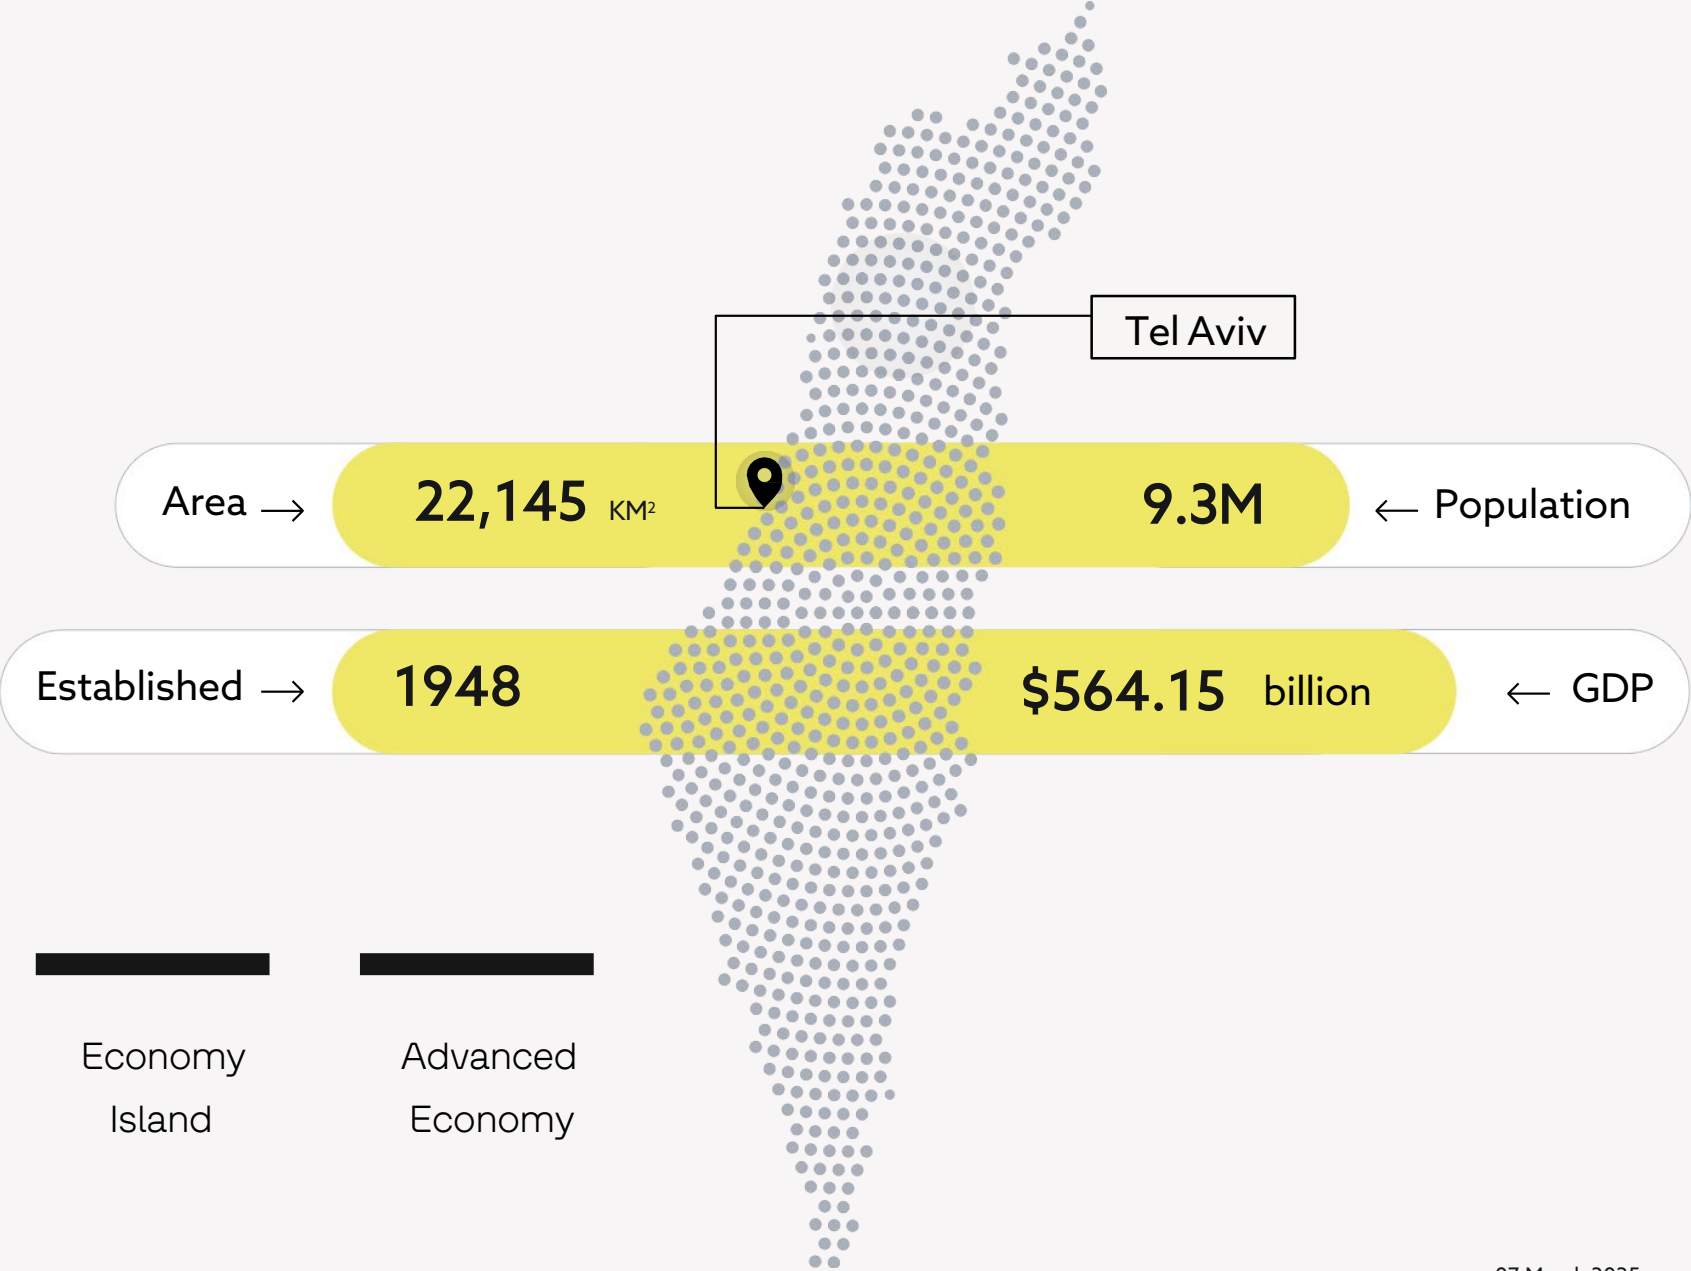

Business Continuity

Flexibility

Chutzpah

Risk Taking

"Better ask for forgiveness than for permission"

Leadership

Team backing

Israel at a Glance

Israel is the size of Hessen

Tel Aviv

Area →	**22,145** KM²	**9.3M** ← Population
Established →	**1948**	**$564.15** billion ← GDP

Country of Immigrants

Cultural Melting Pot

Economy Island

Advanced Economy

Start Up Nation

Israel's Startups Key Figures

NASDAQ Listed Israeli companies	Active Startups	Investments	Active MNCs	Israeli Unicorn companies	R&D expenditure
109	**>7000**	**$10.6B**	**434**	**95**	**5.44%**
(125 IPOs and mergers 2024)	(#1 start ups per capita)	In start ups in 2024	R&D centers		(#1 in OECD)

Since October 7th the Israeli High tech Delivers

Israeli Tech Delivers
NO MATTER WHAT

#NoMatterWhat

Resilient Funding: Despite the conflict, Israeli tech raised nearly $10B post-October 2023, with strong investment in cybersecurity and health tech

Talent Shifts: Military call-ups temporarily impacted workforce availability, increasing demand for remote flexibility

Boosted Government Support: Programs like Yozma 2.0 have increased to sustain startup funding and liquidity

Priority Sectors: Cybersecurity and health tech lead funding as critical areas of focus

Economic Strain: Rising public spending impacts Israel's GDP, but tech remains a key growth drive

"Startup Nation"

What makes Israel like this?

"Melting Pot"

Everyone is equal
Various backgrounds

"Island Economy"

Tough neighborhood
International from day 1

Informal society

Flat hierarchies
Speak up culture

Chutzpah - Audacity

Taking risks Second chance culture

Problem Solving Mindset

Tactical >> Engineering Learning by doing

Resources Managing

Limited resources in Israel
= Innovative thinking

Team Management

Professional roles
Team commitment

Military tech Spillover

Training & Mentoring experience
Technology "spillover"

Resilience is built through mindset and adaptability.

Innovation thrives in uncertainty.

Companies must foster a problem-solving culture.

Thank you for your support!
